PROJECTS

Code optimize Tool | [Link](#)

Jan 01, 2025 - March 08, 2025

- Built a MERN stack code optimization tool with a clean, responsive React UI.
- Integrated Google Gemini API for real-time code suggestions and best practices.
- Deployed on Netlify for fast, seamless access to optimize and learn clean coding.

Tailor Management System | [Link](#)

Nov 17, 2023 - Feb 02, 2024

- Developed a Flutter app to help tailor shops manage customers, inventory, and measurements efficiently.
- Built a Node.js + MongoDB backend with RESTful APIs, deployed on AWS with a custom domain.
- Created a React admin panel (Netlify) for easy shop management, improving workflow and real-time access.

Wedding Event | [Link](#)

June 06, 2023 - Aug 12, 2023

- Built a responsive wedding event planner web app using the MERN stack with user and admin panels.
- Users can browse/book groom wear, bride wear, photography, and decor services seamlessly.
- Admins can manage services, orders, and payments with authentication, CRUD operations, and a clean React UI.
